

PRESS RELEASE

TTS – Travel Technology & Solutions attends PhoCusWright Conference 2013

TTS – Travel Technology & Solutions will present at PhoCusWright Conference 2013 at the Travelport Stand

November 19th, 2013

TTS – Travel Technology & Solutions will be present at PhoCusWright Conference 2013, presenting at the Travelport Stand, as one of Travelport Developer Network members available to demo its solutions.

TTS develops exclusively for Travelport; this strategic decision was taken by the founder's right from the beginning when the company was formed, as then as now with years of experience working in the Travel industry the founders saw Travelport as the GDS provider that has the ideal long term vision and technology to help solve the existing and future industry challenges. Good examples of that are Travelport's Open Platform and the Travelport Developer Network, the first encourages innovation and speed-to-market while the second supports technically and commercially those who wish to do business in the Travel industry.

Rui Figueiredo, co-founder of TTS, says "Travelport has the right vision and strategy to enable 3rd party companies like TTS to create and distribute innovative technology for the Travel Industry. We are proud to work with them and look forward to future successes together".

TTS will be available to demo its products in Travelport stand at PhoCusWright 2013 on the following schedule:

Tue, 19.Nov.2013	14:45 – 16:00
Wed, 20.Nov.2013	08:00 – 09:00
Thu, 21.Nov.2013	14:00 – 15:00
