

PRESS RELEASE

introducing TTS WebAgent Mobile: The Ultimate App for Travel Agents on the Go

Boost Competitiveness and Enhance Client Experience with TTS's Powerful Mobile App – TTS WebAgent

[City, Date] – TTS, a global leader in travel technology solutions, is proud to announce the launch of TTS WebAgent Mobile, the mobile version of their acclaimed desktop application, which will be free for all TTS WebAgent subscribers. With TTS WebAgent Mobile, travel agents can now access more flight options and competitive prices, thanks to the AI Powered search algorithm and split ticketing capability, which can not only draw in more customers but might also present lucrative prospects to the travel agents that use the app. Compatible with both iOS and Android platforms, this powerful mobile app transforms how travel agents work, providing the flexibility needed to excel in today's travel industry.

TTS WebAgent Mobile revolutionizes travel management by offering a dual terminal interface, combining the cryptic terminal and modern graphical interface. Travel agents can effortlessly switch between the interfaces, making bookings in the graphical interface and seamlessly transitioning to the cryptic terminal for advanced management tasks and access to GDS Core commands, effectively handling GDS operations and content from their mobile devices. The graphical interface also helps in the onboarding of new agents, allowing them to quickly grasp the essentials and start assisting clients immediately.

Additionally, TTS WebAgent Mobile's ability to keep ahead in the travel industry is made possible by the app's lightning-fast reaction to command entries. Travel agents can also, share budgets with their customers, saving time and promoting effective communication.

TTS WebAgent Mobile continuously enhances its capabilities. Soon, the app will include LCC (Low-Cost Carrier) and NDC (New Distribution Capability) functions, providing travel agents with convenient access to a larger variety of airline offers, including flights from low-cost carriers. TTS's ongoing commitment to innovation equips travel agents with the resources needed to stay current and seize emerging opportunities.

“We are delighted to introduce TTS WebAgent Mobile, catering to the ever-evolving needs of our users. After the recent release of TTS WebAgent’s new features that enhances productivity and support all travel agents no matter their level of GDS knowledge we are proud to extend this exceptional power to a mobile environment,” said Rui Figueiredo, CEO of TTS. “It’s the perfect tool, empowering our customers to effortlessly manage their tasks, whether at their desks or on the move. TTS WebAgent Mobile provides everything our users need.”
